Description

This is a semi-detached villa with two floors and basement, built with the highest quality materials. There is the possibility of customizing the finishes of the house and it has large terraces on both floors.

This model is built as a semi-detached solely linked by the kitchen, thus obtaining a high level of intimacy between both homes. It is designed in a sustainable way with the latest technologies, security measures and habitability in addition to all the tools to reduce the environmental impact. In this way, it provides a high degree of energy savings.

The villa is characterized by being functional and having a careful design around the 197m² built. The excellent lighting that inhabits house is due to the large windows on the main facades, designed so that there is a perfect integration between the interior and exterior spaces of the house, achieving great luminosity throughout the day.

The construction is carried out on a 375 m² plot, it has 4 bedrooms, 3 bathrooms and a walkable compartmentalized basement with access from inside the house. There is the additional possibility of building a private pool on the plot.

The house is distributed in 4 bedrooms, 3 bathrooms and a kitchen incorporated in the living room. It also has two large terraces on the first floor. The ground floor has a porch that allows you to enjoy the great weather that characterizes the Gran Alacant area.

In the area you will find golden sand beaches, sand dunes and pine, with the possibility of water sports in spaces provided for such purpose. It also has a long promenade in Arenales del Sol, which is populated by walkers, cyclists and skaters. There is also a myriad of services and infrastructure in the area, including shopping center, shops, market, entertainment, school, sports, medical services, pharmacy, banks, administrative offices, library, church, parks, etc .
